

(9) Community of Interest Statement

King George is a **rural exchange** located **north** central Virginia serving customers in King George County **and** a small portion of Westmoreland County. King George is part of **the** Culpeper, Virginia **LATA** and serves approximately 6,800 customers. The Port Royal exchange, which is adjacent to and south of King George, is in the Richmond, Virginia **LATA** with approximately 400 customers. Port Royal serves a portion of Caroline County. Community of interest relates to employment and **personal/community**. King George has several businesses offering employment to the area including Port **Royal**. **They** include Rowe Concrete, White Packing Company, Heritage Hall Nursing Home and **Northern Neck** Transfer Co. These businesses offer over 500 jobs to the area including Port Royal. ELCS will provide enhanced communications **through** local calling to residents along **the** border between these two exchanges including family, friends, churches and community groups.

(10) Maps

Maps **are** attached for **the** King George and Port Royal exchanges.

(11) Other Pertinent Information

Chronology

On May 28, 1999, Bell Atlantic Corporation and GTE Corporation filed a Joint Petition before the Virginia State Corporation Commission ("SCC") for Approval of Agreement and Plan of Merger. In that petition, both companies agreed, upon consummation of their merger, to expand local calling areas to include contiguous exchanges both within and between their respective territories in the Commonwealth of Virginia. The SCC, in its "Order Approving Petition" dated November 29, 1999, in Case No. PUC990100, found this commitment to be appropriate and ordered Bell Atlantic - Virginia, Inc. and GTE South Incorporated to file their plan for expansion of their local calling areas. These plans were filed with the SCC on July 21, 2000, in a Joint Application to expand local calling (Case No. PUC000204). Both companies have been implementing expanded local calling in phases since that joint application was filed. On November 2, 2001 Verizon Virginia (f/k/a Bell Atlantic - Virginia, Inc.) and Verizon South (f/k/a GTE South Incorporated) filed an Application to implement expanded local calling between those adjacent exchanges that are in different LATA's. For those exchanges whose basic rates increase, the SCC ordered the companies to provide notice to customers via direct mail. Exchanges whose rates did not change did not receive a public notice. On May 3, 2002, the SCC issued an order approving ELCS for all interLATA routes in this application including the route between King George and Port Royal.

(9) Community of Interest Statement

King George is a **rural** exchange located in north central Virginia serving a large portion of King George County and a **small portion** of Westmoreland County. King George is part of the Culpeper, Virginia LATA and serves approximately 6,800 customers. The Tappahannock exchange is a large rural exchange located to the south and east of the King George exchange serving a large portion of Essex County and portions of Caroline, King and **Queen**, and Middlesex Counties. The Tappahannock exchange is in the Richmond, Virginia LATA and serves approximately **7,200** customers. Most of the business in **the** Tappahannock exchange is centered around the Town **of** Tappahannock that is located in the southern portion of the exchange. Community of interest is between the more rural, **northern** portion of the Tappahannock exchange and King George. The community of interest relates to employment and **personal/community**. King George has **several** businesses offering employment to the **area** including the Tappahannock exchange. They include Rowe Concrete, White Packing Company, Heritage Hall Nursing Home and **Northern** Neck Transfer Co. These businesses **offer over** 500 jobs to the area including Tappahannock. The Heritage Hall **Nursing** Home provides long-term health **care** to area residents including northern Tappahannock. ELCS will provide enhanced communications **through** local calling to residents along the border of northern Tappahannock and King George including family, friends, churches and their congregations **as well as** community groups.

(9) Community of Interest Statement

Ladysmith is a **rural** exchange located in east central Virginia serving portions of Spotsylvania and **Caroline** Counties. The Ladysmith exchange is in the Richmond, Virginia LATA and serves approximately 5,300 customers. The Brokenburg exchange, also in central Virginia, serves a portion of Spotsylvania County. The Brokenburg exchange serves approximately 2,200 customers and is located in the Culpeper, Virginia LATA. The **community** of interest is **personal/community**, employment and education related. ELCS will provide local communications to friends, relatives, **churches**, **community** groups and businesses along the adjacent **areas** between the Brokenburg and Ladysmith exchanges. Employment opportunities in the Ladysmith exchange include travel related businesses (hotels, restaurants, truck stops, etc.) along the Interstate 95 corridor at Carmel Church and Ladysmith. ELCS would provide local communications between employer and employees in these two exchanges. **Part** of the Ladysmith exchange is in Spotsylvania County. ELCS would connect parents, teachers and students on a local basis for this section of Spotsylvania County.

(9) Community of Interest Statement

The Haysi exchange is to the west of the Maxie exchange and is in the Roanoke, Virginia LATA. The Haysi exchange is in Dickenson County and serves approximately 1,600 customers. Maxie is a small rural exchange located in Buchanan County in southwest Virginia with approximately 800 customers. Maxie is in the Virginia portion of the Bluefield, West Virginia Independent Marketing Area ("IMA"). With the exception of very basic services, Maxie residents must look to nearby areas for their service needs. The Haysi exchange offers medical facilities such as the Haysi Clinic and the Haysi Drug Center. Funeral home services are available for the area from the Haysi Funeral Home. Numerous retail outlets are available in Haysi including professional services. The Breaks Interstate Park offers recreational facilities for the area including Maxie. ELCS will allow Maxie and Haysi customers expanded personal communications to friends and family as well as to churches and community groups in the two exchanges.

(10) Maps

Maps are attached for the Maxie and Haysi exchanges.

Chronology

On May 28, 1999, Bell Atlantic Corporation and GTE Corporation filed a Joint Petition before the Virginia State Corporation Commission ("SCC") for Approval of Agreement and Plan of Merger. In that petition, both companies agreed, upon consummation of their merger, to expand local calling areas to include contiguous exchanges both within and between their respective territories in the Commonwealth of Virginia. The SCC, in its "Order Approving Petition" dated November 29, 1999, in Case No. PUC990100, found this commitment to be appropriate and ordered Bell Atlantic - Virginia, Inc. and GTE South Incorporated to file their plan for expansion of their local calling areas. These plans were filed with the SCC on July 21, 2000, in a Joint Application to expand local calling (Case No. PUC000204). Both companies have been implementing expanded local calling in phases since that joint application was filed. On November 2, 2001 Verizon Virginia (f/k/a Bell Atlantic - Virginia, Inc.) and Verizon South (f/k/a GTE South Incorporated) filed an Application to implement expanded local calling between those adjacent exchanges that are in different LATA's. For those exchanges whose basic rates increase, the SCC ordered the companies to provide notice to customers via direct mail. Exchanges whose rates did not change did not receive a public notice. On May 3, 2002, the SCC issued an order approving ELCS for all interLATA routes in this application including the route between Maxie and Haysi.

(9) Community of Interest Statement

Raphine is a rural exchange in west central Virginia serving portions of Rockbridge, Augusta and Nelson Counties. Raphine serves approximately 2,400 customers. The Raphine exchange is in the Roanoke, Virginia LATA. The Lovingston exchange, located in the Lynchburg, Virginia LATA, serves approximately 7,300 customers in Nelson County. The community of interest is from customers in the eastern portion of the Raphine exchange located on the eastern slopes of the Blue Ridge Mountains in Nelson County with the Lovingston exchange. The community of interest relates to employment, county government, education, shopping/commercial and family/community needs. Businesses in the Lovingston exchange offer employment to the area including residents in the Raphine exchange. These businesses include California Sidecar Escapade Trailer (motorcycle trailers), Central Virginia Electric Cooperative and Wintergreen Resorts. These businesses offer over 1,000 jobs to the area. ELCS would offer local calling between employer/employee for those residents in Raphine. Raphine exchange residents living in Nelson County currently must dial long distance to reach all of their schools and all of the county government offices. ELCS would greatly enhance communications between citizens and their county government and courts as well as between educators, parents and students. Lovingston, Nellysford and Wintergreen (all in the Lovingston exchange) offer area residents three shopping centers with convenience and general merchandise shops, fashion boutiques, speciality stores, and basic medical and dental care. ELCS will also allow local calling along the Nelson County border between Lovingston and Raphine for family, friends, churches and community activities.

(10) Maps

Maps are attached for the Raphine and Lovingston exchanges.
